

INDOFIL BINDER MP

Specialty Protein Binder

PHYSICAL PROPERTIES:

| | | |
|-------------|---|---|
| Composition | : | Anionic blend of casein & additives |
| Appearance | : | Straw colour pourable viscous liquid |
| % Solids | : | 15% - 17% |
| pH (1:10) | : | 8.0 - 9.0 |
| Solubility | : | Readily soluble in water in all proportions |

DISCRIPTION:

Indofil Binder MP is unique non thermoplastic protein binder especially designed for addition in season coat. In season coat it act as binding material & facilitates plate release. It can be used for all kind of leathers like shoe uppers, softies, garments & milled Leathers. Also recommended be used in saddlery & belting leather finishing for better gloss & as a plate release agent.

Indofil Binder MP imparts following unique characteristics,

- High solids protein binder.
- Promotes good plate release with better gloss.
- Imparts good protein touch to leather.
- Compatible with other anionic finishing Chemicals.
- Can be fixed with formaldehyde for better fastness
- Helps in improving scuff resistance
- Recommended for shoe uppers, Garments & milled leathers.

APPLICATION:

Indofil Binder MP is medium soft protein binder mainly recommended for base coat & season coat application for full grain, corrected grain uppers & softies. It imparts good plate release with natural warm finish. Being a protein binder it needs to be stored well & away from direct sunlight.

Indofil Binder MP is recommended up to 50-100 parts/liter in season coat in resin finishing.

STORAGE STABILITY: 6 months if properly stored in cool & dry place under shed in sealed drums.

Please stir well the product before every use.
