

INDOFIL SMB 20

Soft Microfine Acrylic Resin Binder

PHYSICAL PROPERTIES:

Composition	:	Anionic proprietary blend of acrylic emulsion
Appearance	:	Milky white emulsion
% Solids	:	20 ± 0.5%
pH	:	5.0 – 6.0
Charge particle size	:	Ultrafine

DESCRIPTION:

Indofil SMB 20 is micro particle size acrylic emulsion recommended for aniline and semi-aniline finishes on leather. It is having good adhesion. Being very fine, soft and stretchy, the handle of leather is left largely untouched and thus retains natural characters of leather.

Indofil SMB 20 imparts following unique properties,

- Microfine particle size
- Imparts very soft handle with natural look
- Improves adhesion properties in finishing
- Excellent cold crack resistance
- Recommended for aniline & semi-aniline leathers
- Compatible with all anionic finishing auxiliaries

APPLICATION:

Indofil SMB 20 is very soft microfine acrylic binder best suitable for finishing of full grain shoe softy uppers, garment nappa, gloving & dry milled leathers. It imparts good adhesion and warm natural aniline look. It is having a good pot life.

Indofil SMB 20 is recommended 50 – 200 parts in base & intermediate coats.

STORAGE STABILITY:

6-9 months if properly stored in cool & dry place under shed in sealed drums.
