

INDOTAN RE-150

Lightfast Soft Acrylic Resin Syntan

PHYSICAL PROPERTIES:

Composition	:	Blend of special acrylic copolymers
Appearance	:	Pale yellow clear viscous liquid
% Solids	:	39.0% – 41.0%
pH of 10% solution	:	5.5 – 6.5
Solubility	:	Readily soluble in water

DESCRIPTION:

Indotan RE-150 is special anionic acrylic resin syntan well suited for retannage all types of uppers, softies & milled leathers. It is to be used in main retannage after neutralization.

Indotan RE-150 imparts following unique properties,

- Gives excellent grain tightness & eliminates looseness
- Imparts good fullness without hardening of the grain
- Lightfast hence suitable for white & pastel shades
- Compatible with all anionic syntans & fatliquors
- Helps in improving the adhesion of finishes
- It is to be used in retanning after neutralization
- It cannot be used in rechroming, below pH 4.0
- Recommended for water resistant leathers

APPLICATIONS:

Indotan RE-150 is suitable for all kinds of leather such as shoe upper, upholstery, garment & also suited for softies & milled leather. It is to be pre dissolved with water and to be added to the drum.

Indotan RE-150 is having wide range of applications as follows,

For shoe softies & uppers	:	2% - 5% in retanning after neutralization
For C/g shoe softies & uppers	:	2% - 5% in retanning after neutralization
For shoe nappa & linings	:	2% - 4% in retanning after neutralization
For buff water resistant uppers	:	2% - 5% in retanning after neutralization
For milled leathers	:	2% - 4% in retanning after neutralization
For split uppers	:	2% - 4% in retanning after neutralization

STORAGE STABILITY:

6-9 months if properly stored in cool & dry place under shed in sealed drums.
